

NEW!

The Raised Floor Anchor Solution

INTRODUCING

the newest member of the AP.Com anchor solutions family, the raised floor anchor. Our new product is the *only* all-metric, fully-assembled anchor in the market today.

FEATURING

a full 12mm threaded rod x 610 mm overall length. The 508 mm body tube with its 18 mm OD and yellow zinc finish provides a working length which is cut-to-suit in the field for floors up to 20 inches tall.

INCLUDING

a high dielectric strength isolator bushing that provides excellent grounding protection for the rack or enclosure while the large plate washer distributes the load.
